Page Analysis

✓ Title Tag

Title tag length looks good and should display cleanly in most search results.

56 CHARS

Páginas web para empresas: compra o renta | Diseñarte MX

⚠ Meta Description

Meta description may truncate. Put the main value earlier so the snippet still works in search results.

140 CHARS

Diseño de páginas web en San Juan del Río. Cómprala y es tuya o réntala desde una mensualidad fija con hosting, soporte y cambios incluidos.

Keep it concise, ideally 135 characters or less for this check. Lead with the page's main value so the snippet still works if search results truncate it.

⚠ ALT Attributes

Some images are missing alt text. Add descriptions for meaningful images to improve accessibility and image context.

1 MISSING

Missing alt text: 1 of 3 images.

Describe meaningful images in a short phrase or sentence. Skip "image of" unless it adds clarity, and leave decorative images empty with alt="".

i Text/HTML Ratio

Text/HTML ratio was calculated. Use it as a rough content-to-code signal, not an SEO score.

6.0%

Text/HTML ratio: 6.0%; HTML: 86.1 KB.

✓ Heading Structure

Heading structure is clear, so readers and crawlers can follow the page hierarchy.

PROPER

Headings: 1 H1, 5 H2, 7 H3.

✓ URL

URL is clean and easy for users and search engines to understand.

31 CHARS

<https://www.disenartemx.com/paginas-web>

i Keyword Density

Keyword density was calculated. Use it to see which terms dominate the page, not to hit a target percentage.

1.6%

año appears 15 times in 918 visible words.

✓ Internal Links

Internal links look healthy, helping users navigate related content.

24 LINKS

Internal links: 24; unique URLs: 7; broken: 0.

Mobile Compliance

✓ Viewport Meta Tag

Meta viewport tag is implemented, so the page can scale properly on mobile devices.

SET

Viewport: width=device-width, initial-scale=1

✓ Responsive Design

Responsive design signals were detected, so the page should adapt across screen sizes.

DETECTED

Viewport: width=device-width, initial-scale=1; responsive rules detected: 7.

Technical Compliance

✓ HTTP Status

HTTP status is successful, so users and crawlers can access the page.

200

200 OK

✓ XML Sitemap

XML sitemap is reachable, helping search engines discover important URLs.

FOUND

<https://www.disenartemx.com/sitemap.xml>

✓ Robots.txt

Robots.txt allows the current URL, so crawlers can access this page.

ALLOWED

<https://www.disenartemx.com/robots.txt>

✓ Meta Robots

Meta robots directives allow indexing, so search engines can index your content as intended.

INDEXABLE

index, follow

✓ HTTPS

Page resolves to HTTPS, so the URL uses a secure protocol.

SECURE

Final URL: <https://www.disenartemx.com/paginas-web>

✓ X-Robots-Tag

Server-level robots directives are clear, so this page is not blocked by response headers.

INDEXABLE
