Page Analysis

✓ Title Tag

Title tag length looks good and should display cleanly in most search results.

58 CHARS

Nosotros | 20 años de publicidad industrial | Diseñarte MX

⚠ Meta Description

Meta description may truncate. Put the main value earlier so the snippet still works in search results.

149 CHARS

Agencia de publicidad e innovación digital en San Juan del Río desde hace más de 20 años. Proveedor destacado 1er lugar de Imbera México 2023 y 2024.

Keep it concise, ideally 135 characters or less for this check. Lead with the page's main value so the snippet still works if search results truncate it.

✗ ALT Attributes

Most images are missing alt text. Add descriptive alt text so the content is accessible and easier to understand.

5 MISSING

Missing alt text: 5 of 8 images.

Describe meaningful images in a short phrase or sentence. Skip "image of" unless it adds clarity, and leave decorative images empty with alt="".

i Text/HTML Ratio

Text/HTML ratio was calculated. Use it as a rough content-to-code signal, not an SEO score.

5.4%

Text/HTML ratio: 5.4%; HTML: 33.3 KB.

✓ Heading Structure

Heading structure is clear, so readers and crawlers can follow the page hierarchy.

PROPER

Headings: 1 H1, 2 H2, 4 H3.

✓ URL

URL is clean and easy for users and search engines to understand.

28 CHARS

<https://www.disenartemx.com/nosotros>

i Keyword Density

Keyword density was calculated. Use it to see which terms dominate the page, not to hit a target percentage.

3.5%

digital appears 9 times in 259 visible words.

✓ Internal Links

Internal links look healthy, helping users navigate related content.

23 LINKS

Internal links: 23; unique URLs: 7; broken: 0.

Mobile Compliance

✓ Viewport Meta Tag

Meta viewport tag is implemented, so the page can scale properly on mobile devices.

SET

Viewport: width=device-width, initial-scale=1

✓ Responsive Design

Responsive design signals were detected, so the page should adapt across screen sizes.

DETECTED

Viewport: width=device-width, initial-scale=1; responsive rules detected: 7.

Technical Compliance

✓ HTTP Status

HTTP status is successful, so users and crawlers can access the page.

200

200 OK

✓ XML Sitemap

XML sitemap is reachable, helping search engines discover important URLs.

FOUND

<https://www.disenartemx.com/sitemap.xml>

✓ Robots.txt

Robots.txt allows the current URL, so crawlers can access this page.

ALLOWED

<https://www.disenartemx.com/robots.txt>

✓ Meta Robots

Meta robots directives allow indexing, so search engines can index your content as intended.

INDEXABLE

index, follow

✓ HTTPS

Page resolves to HTTPS, so the URL uses a secure protocol.

SECURE

Final URL: <https://www.disenartemx.com/nosotros>

✓ X-Robots-Tag

Server-level robots directives are clear, so this page is not blocked by response headers.

INDEXABLE

X-Robots-Tag header: not present.

✓ Mixed Content

No mixed content was detected, so secure pages and assets load cleanly.

NONE

Insecure resources: 0.

! HSTS

HSTS header is missing or weak. Strengthen it after confirming HTTPS works across the site.

MISSING

Strict-Transport-Security: none.

HSTS tells browsers to use HTTPS for future visits. Treat it as advanced security hardening, and add it only after HTTPS works reliably across the site.
